

Is your child sent home due to Covid-19 at the day-care institution?

HOTLINE
+45 41 45 30 56
Coronadenmark.dk
kl. 17-19

1. Contact your doctor or book an appointment for a Corona test on www.coronaprover.dk

2. In order to prevent potential infection from spreading, you should do the following:

- Keep the child **home** and indoors

- **Do not visit the playground**

- **Cancel** all play dates and gatherings
- **No visits** at home - not even from family members

COVID-19 symptoms in children

Typically, children will seem run down, tired and limp. Other symptoms may be:

- Dry **cough**
- **Fever**
- **Indisposition**
- Respiratory symptoms, for example **sore throat**, running nose, etc.

If your child is tested **POSITIVE** keep your child home.

When the symptoms are gone, keep your child home for 2 more days before returning.

If your child is tested **NEGATIVE**, the child can return once the child is well again, and can participate in regular activities.
